Brain Dump Book

Welcome!

Thank you for being a part of my digital world and purchasing your *Brain Dump Book.* With so many options available, I appreciate that you chose me!

Now you'll have one place for when inspiration strikes, no matter where, as long as you have a device at hand!

For **#TeamAndroid**, you can use **Samsung Notes** from **Google Play** or **Microsoft**, and **Xodo**, **Penly** or **Noteshelf**.

Seven pages will guide you in constructing a holistic ecosystem: your *big idea overview*, *services*, *people*, *checklist*, *timeline*, *resources*, and *notes*.

Be sure to **copy or duplicate pages as you use them** so you'll always have a clean copy, then drag and drop to wherever you need them!

Index

Start with the *Overview* page to 'brain dump' your initial idea. Write down everything, even if it's outrageous, scary and hairy! Time to go **BIG**!

The *Services* page will help you flesh out what you need in support of accomplishing your idea.

The *People* page will help you determine whom you may need to consult or collaborate with.

The *Checklist* page will track your thing-to-do

The *Timeline* page will keep you on schedule to execute the checklist in a timely manner.

The *Resources* page will be a reference point for other necessary and important things to build the systems and processes for your ecosystem.

The *Notes* page will be great for miscellaneous musings, as well as help you consider what systems and processes you need to create a smooth transition into fruition for your big idea!
